

2008 TOUR OF REMODELED HOMES

SCREENED PORCH

716 BRUTON PLACE NORTH

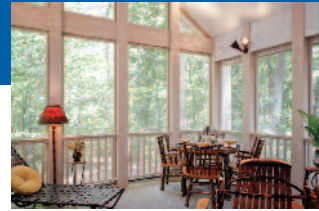

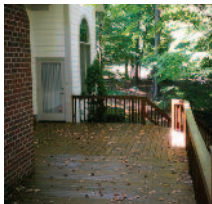

PROJECT DESCRIPTION

In possession of a new house with lots of deck and a beautiful setting, the owners wanted a comfortable space to be near the natural elements. Working with a local architect and designer to provide them with the retreat they envisioned, owner and contractor have collaborated on a three-season room that is both connected to its surroundings and a gracious addition in harmony with the existing home.
